GEMTUMBLER

Your gems, but shinier.

Polishes, sorts and shows off your gems while you nap.

THE PROBLEM

Dull, mixed gems look like gravel from across a cave.

THE GRUMBLETON ANSWER

The Gemtumbler is a slow rotary tumbler that polishes and sorts loose gems by colour. The G model adds a felt-lined drum for delicate and cursed stones.

Why dragons choose it

Gemtumbler • GS-GT-100

01

Three speeds: Gentle, Sparkle and Show-off

02

Sorts by colour into the front trays

03

Quieter than a snoring dragon (40 dB)

3,000
gems capacity

900°C
sustained heat rating

500 yr
warranty on the main body
