HOARDMASTER

The coin pusher trusted by 9 out of 10 drago

Keeps a hoard neat, faced and fully visible — so you always know what you are sleeping on.

THE PROBLEM

Loose piles hide the good stuff, scatter every takeoff, and give a dragon terrible back pain.

THE GRUMBLETON ANSWER

The Hoardmaster is a spring-fed coin pusher for the working dragon. Coins load from the back and glide forward as the front row is taken, so the hoard always looks full, stays in neat rows, and never avalanches onto the cave floor.

Why dragons choose it

Hoardmaster • GS-HM-100

01

Spring-fed pusher keeps the front row full at all times

02

Dragon-scale enamel shrugs off claws, sparks and the occasional sneeze

03

Tool-free rails: re-space the lanes in seconds
