READ BEFORE BREATHING

Assemble in a well-ventilated cave with no open hoard nearby. Keep knights, goblins and small children at least one tail-length away. Some adhesives set instantly at dragon temperatures — hold your breath during steps that mention glue.

What's in the box

Sleeves C from the top, widest first.

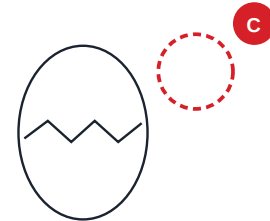

Steps 4 to 6

Nearly there. Resist the urge to breathe on it.

4

Fit the cap

Cap D holds the sleeves down.

5

Show your dragon

One demonstration scratch. They learn fast.

6

Replace sleeves yearly

Or sooner, if you are enthusiastic.

★ TROUBLESHOOTING

Problem

Fix

Post wobbles

Bolts H1 are uneven. Tighten in a star pattern.

Dragon still uses the pillar

Move the post to where the pillar is. They are creatures of habit.
