OVERVIEW

The Hoardmaster is a spring-fed coin pusher for the working dragon. Coins load from the back and glide forward as the front row is taken, so the hoard always looks full, stays in neat rows, and never avalanches onto the cave floor.

FEATURES

- Spring-fed pusher keeps the front row full at all times
- Dragon-scale enamel shrugs off claws, sparks and the occasional sneeze
- Tool-free rails: re-space the lanes in seconds
- Coin guard stops the front row sliding out during takeoff
- Felt feet protect polished cave floors
- Not rated for gems. Gems will be judged.

FINISHES

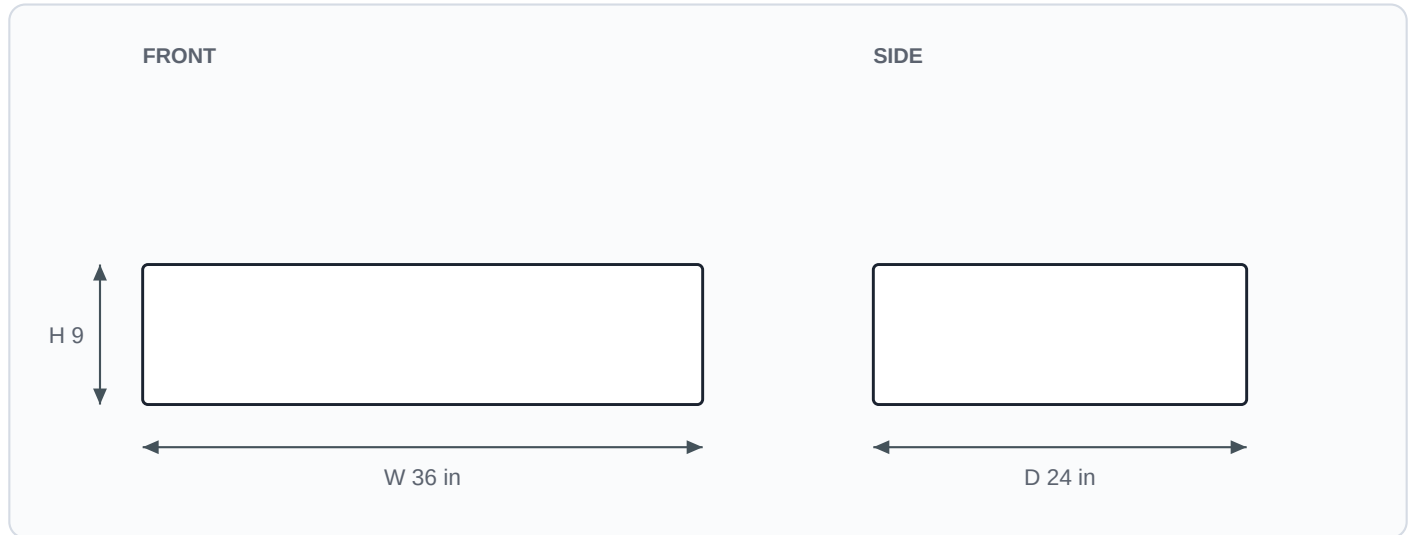

-  Ember Red
-  Scorched Black
-  Hoard Gold
