

SNUGROCK KING

Warm rock. Deep sleep.

A boulder that stays warm all night, so you don't have to.

THE PROBLEM

Caves are cold, floors are hard, and you can only breathe fire on yourself so many times.

THE GRUMBLETON ANSWER

The Snugrock is a self-heating granite boulder shaped for curling up on. Three heat settings, a 20-minute warm-up, and a surface smoothed by a very patient stonemason.

Why dragons choose it

Snugrock King • GS-SR-100

01

Three settings: Toasty, Balmy and Volcanic

02

Warms up in 20 minutes

03

Contoured for a three-circle settle

14 h

of warmth per charge
